

Calf Secure®

Turn biosecurity into action,
codeveloped with BioCheck.

- ▶ **Assess** calf-unit biosecurity in minutes.
- ▶ **Get** a **clear score** and benchmark.
- ▶ Identify **critical points** and **priority actions** to fix them.

Request access now.
Free and available for
professionals upon request.

Biosecurity insights. On-farm impact.

Exposing hidden biosecurity gaps gives producers the tools to make improvements, boosting calf health and performance.

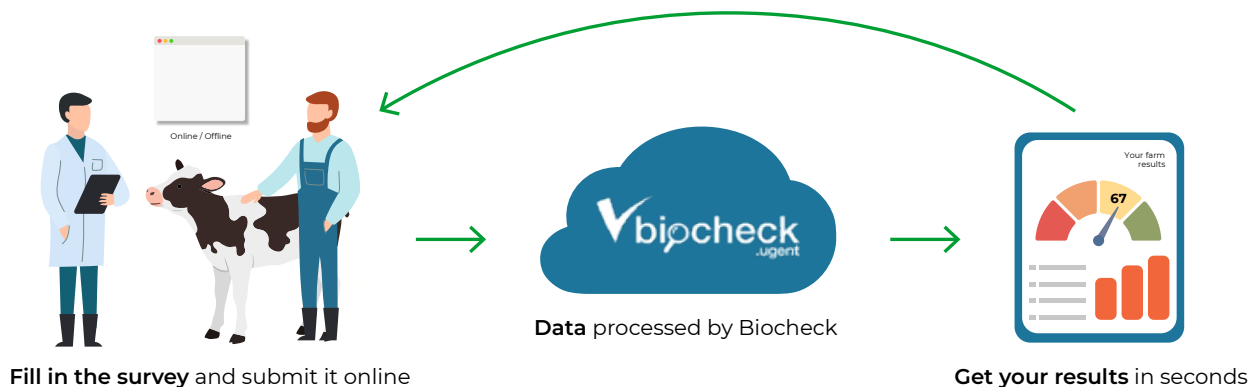

What is Calf Secure®?

Calf Secure® is a **free tool** for professionals that **assesses biosecurity on calf units** and turns the findings into a **clear, practical improvement plan**. Understanding the most important threats for the health of your calves is the key to **building stronger, healthier herds**.

How it works?

What you get?

- ▶ **Clear scores for each section** and benchmarking against other peers.
- ▶ **Priority list of high-impact actions** that trigger change.
- ▶ **Track your improvement over time.**
