--	-------------------------

### Directions for use

- **Newborn calves from day 1 to 3 after birth:** distribute 10 ml per animal and per day, for 3 days.

In case of acute problems [i.e. higher pathogenic pressure]: feed 10 ml/day for 3 days.

### Specific recommendations

It is recommended that an nutrition expert's or a veterinarian's opinion be sought before use or before extending the period of use.

In case of risk of, during periods of, or recovery from digestive disturbance (diarrhoea).

Due to its high content of additives compared to a complete feed, this complementary feed should only be fed to the named species according to the above feeding recommendations.

### Storage

Shelf life: 12 months.

Keep in a dry, cool place (between 5-25°C) and away from light. Once opened use as soon as possible.

### Packaging

Box of 12 syringes of 30 ml

Fab : α DE HB 1 00006
